CSP Youth Infographics

STATE OF NEBRASKA JUDICIAL BRANCH
Juvenile Probation Services Division

October 07, 2026

Introduction:
This data report details statistics regarding the new specialized probation supervision, Comprehensive Supervision Probation (CSP). This new supervision was created by LB530 with an effective date of September 3, 2025. CSP youth are designated by the court if there is a determination the youth is unlikely to respond effectively to a graduated response sanction.

Statute requires CSP youth to receive prioritized services and coordination with the Department of Health and Human Services if dually-involved in both probation and child welfare systems. Youth placed on CSP may receive one sanction for a technical violation. All additional responses, including all law violations are required for submission of an alleged probation violation. Probation supervision for this population is intensive and focused on risk, need, and responsivity factors. This includes frequent contacts from the probation officer both at home and in the community, as well as intensive skill building, including cognitive behavioral groups.

Total Youth Court Cases: 48

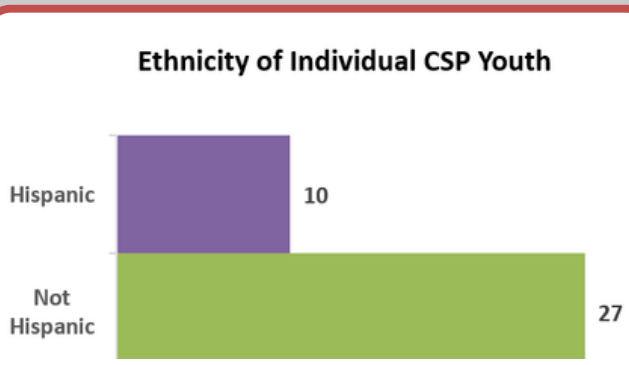

Total Individual CSP Youth: 37

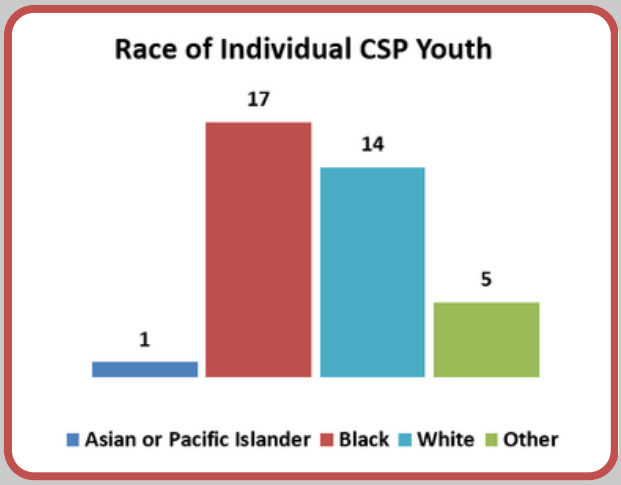

7 of these youth are dual-system involved

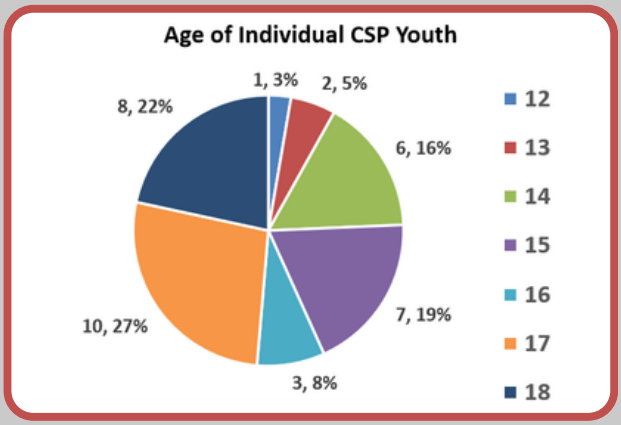

Gender

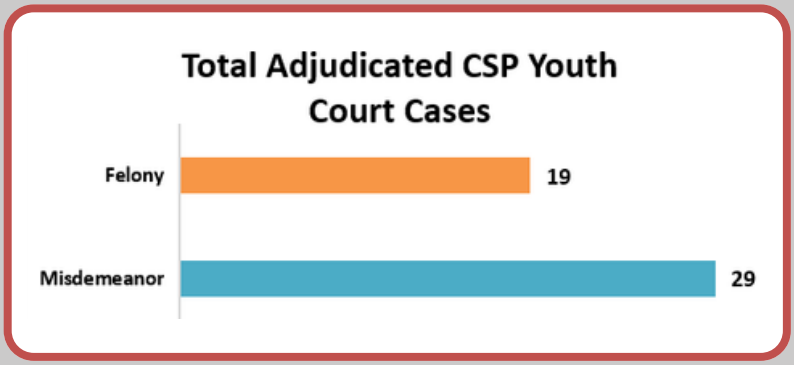

76% Male

24% Female
