# Nebraska District Courts Weighted Caseload Report

**July 1, 2014 — June 30, 2015**

This Weighted District Court Caseload Report contains caseload statistics for Nebraska's 93 District Courts, grouped into twelve Judicial Districts. The judiciary of Nebraska currently assesses the need for judicial positions using a disposition-based, weighted caseload method. Weighted caseload systems provide objective, standardized determinations of resource needs.

*No quantitative judgeship assessment method, including a weighted caseload system will determine the exact number of judges required within a judicial district. But quantitative methods, such as weighted caseload can approximate the need for judgeships and provide a point of reference or standard for comparing relative need among judicial districts. Other measures, both qualitative and quantitative, may be used in conjunction with the weighted caseload standard calculation to support the assessment of judicial need. In particular, should the standard calculation show the need for a fractional judge (less than the full-time equivalent), additional assessments as to the relative workload per judge within a district and travel per judge may be useful. Also, other useful measures may include analyses of budget constraints, population trends, and other factors that may differentially affect the need for judges across districts.*

---

## **Mission of the Nebraska Administrative Office of the Courts:**

Under the direction of the Nebraska Supreme Court, the Administrative Office of the Courts' mission is to ensure the public has equal access to justice, using leadership, education, technology, and administrative services to implement consistent, efficient, and effective court practices.
